Student Evaluation of Lab Write-Up

Submitted by Donald J. ORLAN... on Thu, 07/03/2014 - 15:33

Now that you have completed this lab, we would appreciate your comments. Please take a few moments to answer the questions below, and feel free to add any other comments. Since you have just finished the lab it is *your* critique that will be the most helpful. Your thoughts and suggestions will help to change the lab and improve the experiments.

Please be as specific as possible, using both sides of this paper as needed, and *turn this in with your lab report*. Thank you!
